150 ml

PRO ORAL SOLUTION  
Oraflogo®

**Oraflogo® pro USTNA RAZTOPINA** je hitra in učinkovita podpora za občutljive dlesni. Pomaga lajšati težave v ustni votlini in podpira okrevanje po zobozdravstvenih posegih. Ustna raztopina uporabnikom zobnih protez, ali ortodontskih aparatov pomaga pri zmanjšanju draženja in nelagodja, ki jih le-ti povzročajo.

**NAVODILA ZA UPORABO**  
Po čiščenju zob v priložen lonček odmerite 10 ml raztopine, jo spirajte v ustih do 2 minuti in nato izpljunite. Raztopina je pripravljena za takojšnjo uporabo, zato je ne redčite z vodo. Za najboljši učinek priporočamo, da vsaj 30 minut po uporabi ne uživate hrane in pižace. Priporočamo redno uporabo 3 do 5-krat dnevno, najbolje po umivanju zob.

**OPOMBLILA**  
Oraflogo® pro USTNA RAZTOPINA je namenjena lokalni uporabi v ustni votlini. Izdelek ne popolnile. Izogibajte se predelu oči, v primeru stika jih temeljito sperite z vodo. V primeru nesečnosti, dojenja, preobčutljivosti ali alergiji na katero od sestavin tega izdelka se pred uporabo posvetujte s svojim zdravnikom, zobozdravnikom ali farmacevtom. Shranjevati nedosegljivo otrokom.

**POGODI SHRANJEVANJA**  
Izdelek shranjujte v suhem in temnem prostoru pri temperaturi do 25°C. Priporočamo, da Oraflogo® pro USTNO RAZTOPINO porabite v roku 3 mesecev po odprtju embalaže.

PRO ORAL SOLUTION  
Oraflogo®

**Oraflogo® pro ORAL SOLUTION** is a fast and effective solution for protecting and supporting the oral mucosa. It helps relieve oral discomfort and supports recovery after dental procedures. The mouth solution helps denture and orthodontic appliance users reduce irritation and discomfort caused by these devices.

**INSTRUCTIONS FOR USE**  
After brushing your teeth, measure 10 ml of the solution into the provided cup, rinse your mouth for up to 2 minutes, and then spit it out. The solution is ready to use and should not be diluted with water. For optimal results, avoid eating or drinking for at least 30 minutes after use. Regular use is recommended 3 to 5 times daily, preferably after brushing your teeth.

**WARNINGS**  
Oraflogo® pro ORAL SOLUTION is intended for topical use in the oral cavity. Do not swallow the product. Avoid contact with the eyes. In case of accidental contact, rinse thoroughly with water. If you are pregnant, breastfeeding, or have hypersensitivity or an allergy to any of the ingredients, consult your doctor, dentist, or pharmacist before use. Keep out of reach of children.

**STORAGE CONDITIONS**  
Store the product in a dry, dark place at a temperature up to 25°C. It is recommended to use Oraflogo® pro ORAL SOLUTION within 3 months after opening the plastic container.
